

## Alvotech Announces Closing of Private Debt Financing

July 11, 2024

REYKJAVIK, Iceland, July 11, 2024 (GLOBE NEWSWIRE) -- Alvotech (NASDAQ: ALVO), a global biotech company specializing in the development and manufacture of biosimilar medicines for patients worldwide, today announced the closing of its previously announced senior secured first lien term loan facility (the "Facility"). The closing has allowed Alvotech to refinance outstanding debt obligations, reduce the cost of capital and improve its overall debt maturity profile.

Following the closing of the Facility, which included the settlement of existing debt obligations, Alvotech has a total gross borrowings balance of \$1,035 million, and cash balance of \$185 million, which includes \$18 million of cash on hand, \$25 million of restricted cash and estimated net proceeds of \$142 million, at the time of close. Available cash will be used to continue advancing Alvotech's existing development pipeline, and support working capital requirements for ongoing and expected biosimilars launches in the near term.

The Facility financing, for \$965 million in aggregate principal amount, matures in June 2029. The first tranche is a first lien \$900 million term loan which bears an interest rate of SOFR plus 6.5% per annum. The second tranche is a \$65 million first lien, second out term loan, which bears an interest rate of SOFR plus 10.5% per annum.

"We are thrilled to have successfully closed this refinancing transaction, which grants us additional flexibility to advance our long-term growth strategy," said Joel Morales, Chief Finance Officer of Alvotech. "The recently completed conversion of subordinated convertible bonds into equity also demonstrated strong confidence by our bondholders in Alvotech's performance and both near term and longer-term opportunities as a leading biosimilars company."
